**EASY TO
ASSEMBLE**

**STRENGTH &
RELIABILITY**

**AUSTRALIAN
MADE**

**20 YEAR
WARRANTY**

Oldfields sheds are one of the most attractive and durable sheds on the market manufactured to withstand the harsh Australian environment. There are a large variety of shapes and sizes available in a range of desirable colours. They all come with a **full structural frame** that has a heavy duty midwall frame and full span roof beams for extra strength. **Wrap-around corners** provide added strength and weather protection. **Corrosion protection** is guaranteed with a 20 year warranty from the manufacturer.

•**STYLE & SIZE:** Always choose the biggest shed that will fit all your items and fit in the desired location in your backyard. Measure the space correctly and consider obstructions that may interfere with the construction of the shed such as tree branches, other buildings, easements and the proximity to your neighbors fence and make notes on anything around the area including fences, trees etc. Create a list of all items that you want to store in the shed, you might be surprised by how large a space you actually need.

•**COLOUR:** When considering colour, although personal preference is important also consider choosing a colour that compliments your existing fence as well as the trim colours on your fascia's and window frames of your house. If selecting a light colour like zinc, will the sun reflection cause issues in the backyard. Please note some local authorities don't allow zinc sheds because of this reason.

Standard Gable Roof Sheds

The Standard Gable Roof Shed is the most traditional of Australian Sheds. It comes standard with sliding doors, or some models are also available in hinged doors. Sliding doors are ideal where space is a premium. Hinged doors can usually be placed on any side of the shed.

*Model# 85
With sliding doors

•GABLE ROOF

Gives more headroom & allows rainwater to run to the sides.

•VENTILATED GABLES

Allows air circulation & helps prevent condensation build up on inside of roof.

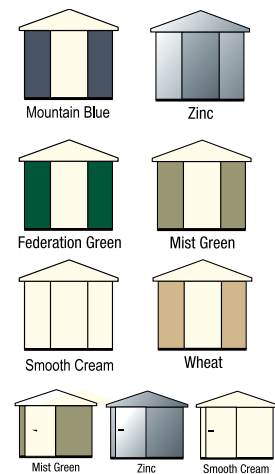

•DOUBLE SLIDING DOORS

Slide from the inside for security and strength. Provide greater access while at the same time letting in more daylight. (Sliding doors can only be placed under gable end of shed.)

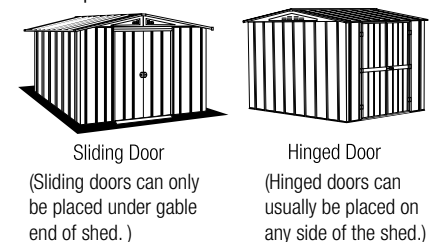

•ENTRY & EXIT RAMPS

Reinforced to withstand wheel barrows, farmbikes or your mowers. (Sliding door sheds only.)

How to order:

When selecting a shed please quote the model number, colour and the type of door, not forgetting to add any accessories you need.

Disclaimer:

All sizes quoted in this catalogue are nominal and usually refer to the Roof size. Please check the catalogue for these dimensions. We have reproduced the colours as accurately as possible however we recommend you check an actual sample usually available from an authorised Treco dealer. Most accessories and/or props used in this brochure are not included with the product.

Prices and specifications in this catalogue may change without notice. All prices include GST. We reserve the right to correct printing errors. The prices are correct from October 2010 and are subject to change from 30th September 2011. Check with your local Treco dealer for any price variations.

Freight and delivery charges may apply.
